TIBCON Long life Submersible Capacitors Completely redefines what Capacitor Quality means to our customers.

Our motto has always been that our Capacitor Life should be much longer than the Appliance/Panel in which it will be installed.

We have installed brand new fully Automatic Production line and installed a new Metalizing machine, with these improvements we have ensured high Quality of Capacitors which will always run and never Fail/Brust so that your Pump/Motor will never Stop.

TIBCON ADVANTAGE

Unique Features

Made with Special Technology Metalized Film that extends the Life of the Capacitors.

Can withstand Voltage Fluctuations in a Submersible Pump Panel.

Can operate with the same efficiency over a wide range of Temperatures and Humidity.

Manufacturing Process of the Capacitor is custom made to suit the requirements of Submersible Pump. Hence reliability is much Higher than other Capacitors.

ABOUT US

As one of the most renowned manufactures of Capacitors and MPP Film in India, Tibrewala Electronics Limited (TEL) has successfully reached the elite 30 Million USD segment, having ventured to capture global markets across Aisa, Africa, Australia, Europe and America.

With a staggering investment of over 10 Million USD today, we proudly stand on the threshold of phenomenal growth, adding value to our Partners, Customers and Vendors, strongly contributing to the nation's industrial strength, TEL has now become the world leader with its rich expertise and global standards.

QUALITY

TIBCON is well-known brand of Capacitors Globally for its Performance. Reliability and Durability. The Quality of our products has been a key driver of our growth and prominence in the capacitor industry.

TIBCON products conform to global industry norms and Internation standards.

- UL 810 (Underwriters Laboratories)
- CSA (Canadian Standards)
- CE (European-Declaration of Conformity)
- ISI (Indian Standards Institution)
